

**WORKING ON THE FUTURE**... Richard Morris, 16, of 1845 W. 247th St., demonstrates his skilled operation of the metal lathe. Richard, who hopes to be a machinist some day, suffers from the rare blood disease, hemophilia, and is supplied with processed blood derivative, anti-hemophilic plasma, by the Red Cross. Blood donors may make appointments for the Red Cross Bloodmobile visit slated for Monday, Oct. 15, from 2 until 6:30 p.m. at the Civic Auditorium by calling the Red Cross at FA 8-0510.

## 16-Year-Old Narbonne High Student Needs Blood Often

Like most high school students, 16-year-old Richard Morris is a little apprehensive about the future he faces following graduation.

Now a freshman at Narbonne High School, he has hopes of being a machinist like his dad, Floyd, an employee of Perry Enterprises.

Hopefully, developed skill will prove the rewarding factor, since most of Richard's spare hours are spent in the machine shop which his father has set up behind their house at 1845 W. 247th St., Lomita. Already he has mastered the metal lathe and drill press to the point where he successfully handles a number of odd jobs that come his way.

Richard's apprehension about the future, however, are based on an unusual factor—a rare blood disease which has caused him always to lead a somewhat restricted life.

Has Strange Affliction

His affliction is the strange and incurable malady of the blood called hemophilia, which means that the clotting factor is almost non-existent. Thus, he has learned to avoid the overly active life that brings on bumps, bruises, and cuts—any of which can result in a prolonged and possibly fatal bleeding seizure.

Fortunately, there is a specially processed blood derivative called anti-hemophilic plasma. Because of this substance—the only one known which will stop a hemophilic from bleeding to death—Richard's worries are considerably lessened.

Needs Plasma Frequently

Though there are worse cases of hemophilic, Richard has need for the plasma at least three or four times a year, reports his mother, who

went on to explain that all bleeding seizures occur without warning—and cannot always be attributed to any specific cause.

"That is why it is important that we have the assurance that the plasma is available when we need it... and thanks to Red Cross, we have that assurance."

During the past year, the Morris family discovered that the "best facilities available for caring for a hemophilic" are in Los Angeles, where the Red Cross Blood Center and the Hemophilia Foundation have formed a team in the interest of helping the 200 hemophilic sufferers in the Los Angeles area lead as normal and happy lives as possible.

While Richard continues to plan for the future, Red Cross pledges to stand by him and thousands of others who depend upon a ready supply of blood and its derivatives for their very lives—confident that the American people will continue to contribute blood and funds with equal generosity.

ROAD NETWORK

There are about three million miles of roads in the U.S. or a mile of road to each square mile of area.

COMMON BORDERS

The borders of Brazil touch upon every other South American country except Ecuador and Chile.

Entrants have all passed the obedience qualifications set forth by the American Kennel Club.

Some of the Southland's most prominent trainers and handlers will judge the various events. Virginia Miller, Marian Hodesson, Bob Burd, James Frey, Carl Spitz and Scott Roberts comprise the group.

Admission will be free, and the show will have classes of both companion and utility dogs. Seven rings will be employed to facilitate judging of the various novice and open classes.

## Dogs Go to College, Not Vice Versa

Although hundreds of dogs will be coming to El Camino Sunday, the college is not going to the dogs, college officials reported yesterday.

Canes of all shapes, colors, sizes, and descriptions will gather in El Camino's stadium for the Southwest Obedience Club's dog show.

Jack Bradshaw of Dog Shows, Inc., a well-known figure to most canine enthusiasts, will serve as master of ceremonies at the event.

Mr. and Mrs. I. J. Guggiana, of 1721 256th St., Lomita, welcomed their third child, a boy, on Oct. 4.

Johnny Joseph, who weighed in at 10 lbs., 10 1/2 oz., was greeted enthusiastically by his sister, Barbara Ann, age 3, and a brother, Tony, age 11.

The Butch Hudgins drive is lacking less than \$350 to support the drive over the top of the \$2000 goal set for the medical expenses.

Butch expects to go back to school after Christmas and is at present staying caught up in his studies by a home teacher.

A while back the HERALD made mention that among the tragedies, resulting from the accident that took Butch's leg, was the one of Jackie Curtis. Jack's new bike had been demolished under the wheels of the car that struck the newsboys, and he still had the payments to make. Jack has been

By ALICE PALCZEWSKI DA 6-0788

Members of the 259th Place School PTA are asked to save items for their forthcoming rummage sale scheduled for Oct. 24 at the House of Rummage, 1142 S. Pacific Ave., in San Pedro, from 9 a.m. until 5 p.m.

Anyone having material suitable for the sale can leave the articles at 26246 Fairview, 26106 Narbonne, or 1852 256th St., all in Lomita, or at 26200 Governor, in Harbor City.

Narbonne PTA board members will meet Oct. 12 at 9:30 a.m. in the school office of Mrs. Ware. Plans for the first association meeting scheduled for Oct. 16 in the school auditorium at 1:30 will be completed.

Presiding over the meeting and greeting the mothers of new students will be Mrs. D. G. Cheek, president.

A program of musical selections rendered by students will be presented by Miss Alice Sturdy, musical director. Following the program a tea for the new students and their mothers will be held in the girls gymnasium.

White elephants wanted! Las Vecinas will hold its benefit pancake breakfast at El Retiro Park Oct. 21, and the group is looking for white elephants. Jan Cooley is in charge of these cast-offs. If you'll call her at FR 5-1871 she'll pick them up. Better see what you can dig up right now.

There are recreational leaders every afternoon from 3 to 5:30 during the week and all day Saturday at El Retiro Park.

Marylou Sass, a sophomore at El Camino, is in charge during the week. Joe Maag, also of El Camino, will be at the park on Tuesdays, Thursdays and Fridays to coach the boys.

Everyone is welcome.

Have you heard an extra "tweet" around the yard lately?

Mrs. Frank Rodenhauer, 304 Andalucia, had a pair of cockatoos.

## ROUND THE RIVIERA

### Polio-Stricken Youngsters Get Treatments at Swimming Pool

By EM FRENCH FR 5-1390

We heard something that makes us feel good. It's about Parke Bryan and Ed Fester, of the Parke Gymnasium and the swimming pool at the Hollywood Riviera Beach Club Margaret and Larry Palmer, 223 Paseo de Granada, contracted polio about a year ago. They're back in school now, but are currently receiving care, and have been from the last six months, from the Parke Riviera Gym.

Parke Bryan and Ed Fester give them exercises in the gym and pool. They consult with the doctor and orthopedic surgeon and revise children's programs as they make progress in their recovery.

White elephants wanted! Las Vecinas will hold its benefit pancake breakfast at El Retiro Park Oct. 21, and the group is looking for white elephants. Jan Cooley is in charge of these cast-offs. If you'll call her at FR 5-1871 she'll pick them up. Better see what you can dig up right now.

**Electric cooking is fastest**

Now! Bacon and Eggs in 3 1/2 minutes when you cook electrically!

TODAY, NOTHING COOKS FASTER than a modern electric range. Bacon and eggs in 3 1/2 minutes. Instant coffee in 60 seconds. Hot soup in 68 seconds. Fry, bake, broil or roast—electricity does it better.

THERE'S MORE: your kitchen is cooler. And cleaner. Pots and pans stay mirror-bright. Kitchen walls look fresh and new twice as long.

SOMEDAY YOU'LL COOK on a modern electric range. It's almost inevitable. But why postpone it? Edison rates are among the lowest in the country. What's more, after the warranty on your range expires, Edison services it free as long as you own it. (The only charge is for parts, when needed.)

If YOU'RE STILL COOKING the old way, it's simply because you haven't seen the new '56 electric ranges at your appliance dealer's.

**LIVE BETTER—ELECTRICALLY!**

**SOUTHERN CALIFORNIA Edison COMPANY**
